

## Operation & Maintenance — Dangler™ DA19

Congratulations, you have just purchased one of the most efficient aerators available today! Enclosed you should find this document and a Dangler™ DA19 diffuser.

This streamlined, multi-plane, fine bubble diffuser is ready for in-line installation. The Dangler™ DA19 comes equipped with a 3/4" female U.S. standard pipe thread (FNPT) fitting for your convenience. Please connect the diffuser to your air supply with a 3/4" MNPT fitting. The use of plumbers tape is optional.

**⚠ Caution:** Do not overtighten! Doing so may result in damage to the diffuser and, therefore, decrease efficiency and void your warranty.

Recommended sewer diameter is 24" or larger. The manifold should be secured as shown below. Custom aeration system engineering and installation services are available upon request.

To maintain your DA19, increase the air pressure through the diffuser to expand the membrane. This will help release calcium and biological buildup. The frequency of this process depends upon the environment the diffuser is subjected to. Clean the diffuser with a brush and water annually for optimum performance and durability.

## MixAir Technologies, Inc. (MAT) Warranty

MAT warrants to the original purchaser that its products will remain free from defects in materials and workmanship from the purchase date through the period stated below. If any such defect is discovered within the warranty period, call for a "Return Goods Authorization". MAT will, at its sole option, repair or replace your product as per the applicable warranty.

- Purchaser is responsible for freight charges both to and from MAT in all cases.
- Warranty is void if the product is abused, tampered with or used unreasonably.
- Warranty is exclusive and is in lieu of all other warranties, whether written, oral or implied, including the warranty of merchantability and of fitness for any particular purpose. MAT's liability is in all cases limited to the replacement price of its product. MAT shall not be liable for any other damages (whether consequential, indirect or incidental) arising from the sale or use of its products.
- MAT may send you written recommendations explaining how to prevent a problem from happening. MAT reserves the right to withdraw this warranty if you do not follow these recommendations.

MAT's personnel may modify this warranty at their discretion.
