

# Orb-3 pool & spa

Orb-3 Pool Enzymes produce sparkling water with fewer chemicals

Improves water clarity

Naturally cleanses away algae & slime

Effective on scum lines

Fewer water upsets

Reduces chemical treatments and eliminates chemical odors

Safe for plants, pets and humans

Orb-3 Pool Enzymes cleanse water by removing organic material and restores your residential pool to a clear, odor-free state.

Typical pool chemicals minimize the signs of underlying water problems. Orb-3 Pool Enzymes utilize a diverse blend of broad spectrum enzymes to break down body oil, lotions, urine, feces and other organics.

Orb-3 Pool Enzymes speed up the natural process to safely remove this organic material before it has a chance to cause problems with water clarity, excess slime and algae growth.

Orb-3 Pool Enzymes can be used with other water treatment chemicals to help stabilize pH, reduce water upsets and make your pool sparkle.

## Residential Application Rates

Maintenance: Add 1 – 2 ounces per 2,000 gallons of water capacity weekly. In case of warmer temperatures or greater than normal swimmer volume a weekly application of 2 – 4 ounces may be required to achieve great results.

Open, close or upset: Add 2 – 4 ounces per 2,000 gallons of water.

Do not mix with sanitizers prior to use.

## For Optimum Results

Normal use of pool sanitizer and “shock” routines have no adverse affect on any Orb-3 product

Mix the recommended dosage with a bucket of pool water and evenly apply around the pool surface

Apply when water temperature is between 50°– 110° F and pH and alkalinity are at recommended levels
