

# Orb-3 lake & pond

Orb-3 Pellets-the low-maintenance solution for muck and solids removal

Improves water clarity

Naturally breaks down odor-causing muck on rocks and water features

Reduces sludge without the need to drain water gardens

Orb-3 Pellets are great for backyard ponds and water gardens as a low-maintenance solution for muck and solids removal, decorative stone clean-up and water clarity.

Orb-3 Pellets are fortified with specialized bacterial strains that quickly consume muck and organic matter. Orb-3 Pellets have a trace mineral package and an organic catalyst to increase the productivity of the beneficial bac-

teria in each pellet. The pellet itself is specially designed to drive the active ingredients down to the sludge.

Orb-3 Pellets combine all of the natural additives that a water garden often lacks in a simple cost-effective, easy-to-use solution for continuous sludge and water clarity management.

## Application Rates

Per 500 gallons of water garden capacity; measure in feet to calculate volume and take L x W x avg. D x 7.48 = Gallons

Initial: For the first 2 weeks, disperse 2 capfuls evenly across surface

Weekly: Disperse 1 capful evenly across surface

## For Optimum Results

Always use as directed

Disperse pellets evenly across surface of the water to achieve good coverage of pond bottom

Apply when ambient temperature is 50°–90° F; dissolved oxygen level is over 1.0 ppm; pH is 6 – 8; alkalinity is less than 100 ppm

Use with other Orb-3 Enzymes, Bacteria and Mineral products for a full treatment program

Proper aeration or circulation will enhance product performance
