

Topdress Formula – Finfish

## Immune Enzyme IE110F

IE110F provides effective immune system stimulation and improves digestion. (DOC 61 - Harvest)

IE110F blend is a unique immune enhancing formula for all species of finfish, but most especially relevant for species that are delicate or have historically low rates of survival such as sole, grouper and the like. The natural ingredients found in IE110F have been selected to strengthen the animals survival response against pathogens and parasites. IE110F contains no steroids or growth hormone additives.

This specialized formula is made from food-grade ingredients that are non-hazardous and non-toxic, many of which are generally regarded as safe (GRAS).

Active ingredients consist of proteins and enzymes with known capabilities to enhance immune response in finfish and increases in the digestion of proteins, lipids, phosphorous and carbohydrates for

increased absorption and the break down of organic wastes.

IE110F benefits:

- Enhances non-specific immune response from pathogens
- Removes systemic toxins and waste matter from inside the animal
- Increases digestion capacity of finfish so they can absorb more nutrients from the feed
- Provides dramatically higher survival ratios
- All-natural and environmentally safe

*The Complete Aquaculture Program*

# IE110F

## Application

Beginning the third month and continuing on until harvest of the grow-out stage, add 2 ml/kg of finfish feed.

During times of apparent stress or disease, increase the dosage to 5 ml/kg of finfish.

Prior to application mix IE110F 1:50 with water. Topically spray the dilution onto feed. Once sufficiently dried, feed the fish as you would normally.

For optimal FCR utilize the **e<sub>z</sub>** Aquaculture feed schedule.

## Composition

Water, enzymes from plants, enzyme enhancing agents, protein nucleotides, phosphatidyl choline, trace minerals and stabilizers

## Packaging

20 L  
Tight-head Pail

60 L  
Poly Drum

200 L  
Poly Drum

## Handling and Storage

Apply only as intended. Though this product is non-toxic and nonhazardous, it is not suitable for human consumption. The manufacturer assumes no liability, expressed or implied, in the use of this product.

Store this product out of direct sunlight in a cool (under 40° C) dry area. For best results, use within 12 months. Request an IE110F MSDS for more specific information.
