

Topdress Formula – Finfish

Digestive Enzyme DE110F

DE110F, a specialized ultra concentrated formula for fish, improves digestion and enhances growth.

DE110F formula is an ultra concentrated blend of specialized proteins and enzymes designed for the aquaculture feed industry, specifically for fish.

DE110F increases the digestive capability, thereby increasing the absorption and the benefit from dietary nutrients in the feed. DE110F enables fish to quickly overcome systemic toxins and waste matter, which automatically increases its capability for growth and reproduction.

Animals will exhibit greater capacity to fend off stress and disease, yielding improved survival ratios.

DE110F is natural and biologically safe, consisting of proteins and enzymes with known capabilities of breaking down toxins such as ammonia and sulfides as well as metabolizing proteins, lipids, phosphorous and carbohydrates for increased absorption.

DE110F benefits:

- Increase digestion capacity of fish to absorb more nutrients from the feed
- Remove systemic toxins and waste matter from inside the animal
- Enhances growth and improves survival ratios
- Ultra Concentrated, more economical

The Complete Aquaculture Program

DE110F

Application

Prior to application mix DE110F 1:50 with water. Topically spray the dilution onto feed. Once sufficiently dried, feed the fish as you would normally.

During the rearing / nursery stage, add 0.5 ml/kg of fish feed.

During grow-out stage and until harvest, add 1 – 2 ml/kg of fish feed.

Note: GLB recommends the use of IE210F after DOC 90, or optionally continue to use DE110F until harvest.

For optimal FCR utilize the **ez** Aquaculture feed schedule.

Composition

This proprietary formula contains water, enzymes from plants, enzyme enhancing agents, trace minerals and stabilizers.

(Partial list of active enzymes: Amylase, Catalase, Cellulase, Esterase, Hemicellulase, Hydrolase, Isomerase, Ligase, Lipase, Lyase, Oxidoreductase, Protease, Transferase among others).

Packaging

20 L
Tight-head Pail

60 L
Drum

200 L
Poly Drum

Handling and Storage

Apply only as intended. Though this product is non-toxic and nonhazardous, it is not suitable for human consumption. The manufacturer assumes no liability, expressed or implied, in the use of this product.

Store this product out of direct sunlight in a cool (under 40° C) dry area. For best results, use within 12 months. Request a DE110F MSDS for more specific information.
