

Topdress Formula – Tiger Shrimp

Immune Enzyme IE201F

IE201F provides effective immune system stimulation and improves digestion. (DOC 61 - Harvest)

IE201F blend is a unique immune enhancing formula for shrimp, specifically prepared for the late stages of culture. The natural ingredients found in IE201F have been selected to strengthen the animals survival response against pathogens and parasites. IE201F contains no steroids or growth hormone additives.

This specialized formula is made from food-grade ingredients that are non-hazardous and non-toxic, many of which are generally regarded as safe (GRAS).

Active ingredients consist of proteins and enzymes with known capabilities to enhance immune response in finfish and increases in the digestion of proteins, lipids, phosphorous and carbohydrates for increased absorption and the break down of organic wastes.

IE201F benefits:

- Enhances non-specific immune response from pathogens
- Removes systemic toxins and waste matter from inside the animal
- Increases digestion capacity of finfish so they can absorb more nutrients from the feed
- Provides dramatically higher survival ratios
- All-natural and environmentally safe

The Complete Aquaculture Program

IE201F

Application

Beginning the third month and continuing on until harvest of the grow-out stage, add 2 ml/kg of Tiger Shrimp feed.

During times of apparent stress or disease, increase the dosage to 5 ml/kg of Tiger Shrimp.

Prior to application mix IE201F 1:50 with water. Topically spray the dilution onto feed. Once sufficiently dried, feed the shrimp as you would normally.

For optimal FCR utilize the **e_z** Aquaculture feed schedule.

Composition

Water, enzymes from plants, enzyme enhancing agents, protein nucleotides, phosphatidyl choline, trace minerals and stabilizers

Packaging

20 L
Tight-head Pail

60 L
Poly Drum

200 L
Poly Drum

Handling and Storage

Apply only as intended. Though this product is non-toxic and nonhazardous, it is not suitable for human consumption. The manufacturer assumes no liability, expressed or implied, in the use of this product.

Store this product out of direct sunlight in a cool (under 40° C) dry area. For best results, use within 12 months. Request an IE201F MSDS for more specific information.
