

Safe, non-toxic minimum risk pest solution

MRP naturally controls most pesky insects without the use of harmful chemicals

MRP is a minimum risk pesticide which inhibits and controls pests naturally. MRP is effective for regular use on fruit flies, gnats, ants, aphids, boxelders, mosquitos, bedbugs, fleas, mites, lice and others.

The secret to MRP's uniquely reliable performance is that it is a proprietary fortified blend of naturally safe raw materials that speed the biological degradation of the pests it mitigates.

MRP combines natural technologies to effectively achieve continuous pest control and management without long-term environmental repercussions.

- MRP poses little or no risk and is EPA exempted from FIFRA registration requirements as outlined in 40 CFR section 152.25(f)
- Controls insects without poisons
- Contains food-grade ingredients
- Removes contaminants and odors that encourage future infestation
- Safe for use around people and pets
- Leaves no harmful residue

Treatment Guidelines

Directions for Use

Soil Treatment:

Dilute 8-10 ounces into a gallon of water to spray onto 300-500 square feet

Water Treatment:

Dilute 3-4 ounces into a gallon of water and spray onto 1000 square feet of water surface area

Airborne Treatment:

Dilute 1:1 and manually spray the full volume of the room and contents, working from top to bottom; or use an automatic fogging machine.

Caution: Spray may not be suitable for non water-safe surfaces

Carpet Treatment:

Use carpet cleaning machine; add 4 – 6 ounces per gallon of water; follow machine instructions for cleaning and extraction.

Caution: Check carpet for color fastness before using product

Laundry of infested linens:

Use 4 oz per load of laundry along with your current detergent; wash on HOT setting. Continue usage until pests are gone. Launder all bedding, curtains, area rugs and other washables.

Caution: Check fabrics as HOT setting may not be suitable for all items

Severe or persistent infestation:

Use as directed for airborne, carpet and laundry instructions; additionally, remove any items that are personal or not water-resistant from the room, spray / saturate all corners of room including baseboards, moulding, trim, door and window jams, crevices in built-in furniture and fixtures, etc. Let surfaces absorb the product for 30 minutes or until dry; vacuum or blow out remains.

Repeat 3+ times weekly or until pests do not reappear.

For Optimum Results

- Always use as directed
- Use hot or warm water whenever possible when treating infestation
- Try other cleaner products by Great Lakes Bio Systems to safely wash away the odor, dirt and grime that attract pests

Packaging, Handling and Storage

Size	Pkg	Dimensions (LxWxH)	Weight
Quart	12/cs	14" x 10" x 10"	29 lbs
1-gal	4/cs	15" x 10" x 10"	39 lbs
5-gal	pail	12" x 10" x 15"	48 lbs

Store this product out of direct sunlight in a cool dry area. For best results, use this natural product within 6 months. Request a copy of the MRP MSDS for specific information.
