## Barn & Pen Cleaner BPC1000

Neutral pH BPC1000 removes ammonia and effectively cleans animal holding areas and equipment

Great Lakes Bio Systems' Barn & Pen Cleaner pairs high-performance surfactant technology with proprietary enzymes which emulsify feces, urine, grease, fat and excess feed.

BPC1000 combines neutral-pH cleaning with an enzyme package that is capable of lifting surface and embedded soils, and begin breaking them down at the molecular level, as well as neutralize the odors emanating from them.

BPC1000's molecular degradation of fecal matter, complex sugars, fatty acids and proteins is achieved so efficiently that surfaces are cleaned and deodorized in one step without the use of harsh chemical cleaners. BPC1000 is safe for use around people and animals daily.

BPC1000 Cleaning Benefits:

- Specialized enzyme surfactant blend is formulated to break down and remove urine, feces, and other organics from animals and their production
- Neutral pH when used as directed and contains no phosphates, quaternaries, solvents, volatiles or other hazardous materials
- Ideal for regular indoor and outdoor use

BPC1000 Deodorizing Benefits:

- Neutralizes ammonia & deodorizes production area
- Facilitates maximum air exchange at minimal change of ambient temperature
- Increase efficiency of fans and air scrubbers used in odor control

# BPC1000

## Application

### Cleaning:

Mix at the ratio of 1L of BPC1000 with 9L of fresh water. This will clean up to 100 square meters of surface area.

### To improve cleaning efficiency:

- Remove solids before cleaning
- Increase contact time to improve performance
- For stubborn or heavily soiled areas, let product dry onto surface and pressure wash to rinse
- Use a brush or friction to achieve a deeper clean

### Deodorizing:

**For Severe Odor:** Mix at the ratio of 1L of BPC1000 with 19 L of fresh water. This will deodorize up to 500 square meters.

**For Mild Odor:** Mix at the ratio of 1L of BPC1000 with 39 L of fresh water. This will deodorize up to 1000 square meters.

### To improve deodorizing efficiency:

- Use a fine mist fogger
- Spray from above
- Treat odor source heavier; spray until moist.

## Packaging

20 L  
Tight-head Pail

60 L  
Poly Drum

200 L  
Poly Drum

## Handling and Storage

Dilute and use only as directed. This product is not food grade nor for human consumption. The manufacturers assume no liability, expressed or implied, in the use of this product.

Keep container cool; under 38°C, tightly closed and away from sunlight. This product is available in 20L pails and 60L or 200L drums.

Request a BPC1000 MSDS for more specific information.
